

Thank you for letting us complete your business compliance filing!

Your company will remain in an active, good standing with the state until your next regular compliance filing due date. If you need to update company information in between compliance filing times, you can find the necessary documents in your online account.

Ninety (90) days before your next compliance filing is due, you'll receive an online reminder from us about the upcoming deadline. We'll file your business's compliance report five days after the reminder, and charge your card the required state fees (if any) and our filing service.

### **Our Continuing Role**

We'll continue to take care of your business compliance filing each year, so you can continue to focus on running your business. Failing to file on time is the top reason businesses are dissolved by the state—we'll make sure your business stays active and state-compliant year after year while maintaining your privacy as much as possible.

If you need to cancel this automatic compliance filing service, you can do so any time in your online account.

### **What if I Want Additional Services?**

Need a registered agent for your business? Looking to form another company? Register to do business in another state? With your online account you can add new services, monitor company documents, manage your business, pay an invoice, utilize the tools and pro filing tips we provide you, and so much more.

We appreciate your business!
