If an amount is not reported in this line for a U.S. Treasury obligation that is a covered security acquired at a premium and the payer is reporting premium amortization, the payer has reported a net amount of interest in line 3. If the amount in this line is greater than the amount of interest paid on the U.S. Treasury obligation, see Regulations section 1.171-2(a)(4).
13. **Bond Premium on Tax-Exempt Bond**—For a tax-exempt covered security, shows the amount of premium amortization allocable to the interest payment(s). Reporting is also required when your broker knows or has reason to know that a corporation in which you own stock has had a reportable change in control or capital structure. You may be required to recognize gain from the receipt of cash, stock, or other property that was exchanged for the corporation's stock. If your broker reported this type of transaction to you, the corporation is identified in line 1a.

Applicable checkbox on Form 8949—Each section indicates where to report this transaction on Form 8949 and Schedule D, and which checkbox is applicable. See the instructions for your Schedule D and/or Form 8949. Information for each applicable Form 8949 checkbox has its own separate section on this form.

For Section 1256 option contracts, "Section 1256 option" or other appropriate description may be shown. For a corporation that had a reportable change in control or capital structure, this line may show the class of stock as C (common), P (preferred), or O (other).
 - 1b. Date Acquired—This column may be blank if the basis is not reported to the IRS. If the shares sold were acquired on a variety of dates, the column may be marked "various." For short sales, the date shown is the date you acquired the security delivered to close the short sale.

May also show the aggregate amount of cash and the fair market value of any stock or other property received in a reportable change in control or capital structure arising from the corporate transfer of property to a foreign corporation. Losses on forward contracts or non-Section 1256 option contracts are shown in parentheses. This column does not include proceeds from Section 1256 option contracts. Report this amount on Form 8949 or on Schedule D (whichever is applicable), as explained in the instructions for Schedule D.
 - 1e. Cost or Other Basis—Shows the cost or other basis of securities sold. If the securities were acquired through the exercise of a non-compensatory option granted or acquired on or after January 1, 2014, the basis has been adjusted to reflect your option premium. If the securities were acquired through the exercise of a non-compensatory option granted or acquired before January 1, 2014, your broker is permitted, but not required, to adjust the basis to reflect your option premium. If the securities were acquired through the exercise of a compensatory option, the basis has not been adjusted to include any amount related to the option that was reported to you on a Form W-2. If the security is noncovered, the amount in column 1e may be blank. See the Instructions for Form 8949, Instructions for Schedule D or **Pub. 550, Investment Income and Expenses**, for details.

 2. Type of Gain or Loss—Short-Term Gain or Loss, Long-Term Gain or Loss, or Ordinary Income. If the ordinary income footnote is stated, your security may be subject to special rules or an adjustment may be required. See the Instructions for Form 8949, **Pub. 550, Investment Income and Expenses**, or **Pub. 1212, Guide to Original Issue Discount (OID) Instruments**, for more details.
 3. Proceeds are from Qualified Opportunity Fund (QOF)—Reporting a disposition of interest in a QOF.
 4. **Federal Income Tax Withheld**—Shows backup withholding. Generally, a payer must backup withhold if you did not furnish your taxpayer identification number to the payer. See Form W-9, *Request for Taxpayer Identification Number and Certification*, for information on backup withholding. **Include this amount on your income tax return as tax withheld.**

 7. Loss based on the 1d amount above—If stated, you cannot take a loss on your tax return based on gross proceeds from a reportable change in control or capital structure reported in column 1d. These are considered closed out as of that date. This will become an adjustment reported as unrealized profit or (loss) on open contracts—12/31/2025 in 2026.
 11. Aggregate profit or (loss) on contracts—Columns 8, 9, and 10 are all used to figure the aggregate profit or (loss) on Section 1256 option contracts for the year. Include this amount on your 2025 Form 6781.

- 14.–16. Shows state(s) income tax information.

1099-OID: ORIGINAL ISSUE DISCOUNT (OMB NO. 1545-0117)

Original issue discount (OID) is the excess of an obligation's stated redemption price at maturity over its issue price (acquisition price for a stripped bond or coupon). OID on a taxable obligation is taxable as interest over the life of the obligation. If you are the holder of an OID obligation, generally you must include an amount of OID in your gross income each year you hold the obligation. Obligations that may have OID include a bond, debenture, note, certificate, or other evidence of indebtedness having a term of more than one year. For example, the OID rules may apply to certificates of deposit (CDs), time deposits, bonus savings plans, and other deposit arrangements, especially if the payment of interest is deferred until maturity. In addition, the OID rules apply to Treasury inflation-protected securities. See **Pub. 550, *Investment Income and Expenses*** for more information.

The information provided may be different for covered and noncovered securities. For a description of covered securities, see the Instructions for Form 8949. For a taxable covered security acquired with acquisition premium, your payer generally must report either (1) a net amount of OID that reflects the offset of OID by the amount of acquisition premium amortization for the year or (2) a gross amount for both the OID and the acquisition premium amortization for the year. For a noncovered security acquired with acquisition premium, your payer is only required to report the gross amount of OID.

1. **Original Issue Discount for 2025**—Shows the OID on the taxable obligation for the part of the year you owned it. Report the amount in column 1 as interest income on your income tax return. However, depending on the type of debt instrument, the issue or acquisition date, and other factors (for example, if you paid acquisition or bond premium, or the obligation is a stripped bond or coupon), you may have to figure the correct amount of OID to report on your return. See **Pub. 1212, *Guide to Original Issue Discount (OID) Instruments***, for details on how to figure the correct OID.

See the instructions above for a covered security acquired with acquisition premium.

2. **Other Periodic Interest**—Shows qualified stated interest on this obligation for the year, which is an amount separate from the OID. If you held the obligation the entire year, report this amount as interest income on your tax return. If you disposed of the obligation or acquired it from another holder during the year, see **Pub. 550, *Investment Income and Expenses*** for reporting instructions. If there is an amount in both boxes 2 and 8, the amount in box 2 is interest on a U.S. Treasury obligation and is exempt from state and local income taxes. If there is an amount in both boxes 2 and 11, the amount in box 2 is tax-exempt interest and is not included in interest income on your tax return. In general, see how to report tax-exempt interest in the Instructions for Form 1040 or 1040-SR.

3. **Early Withdrawal Penalty**—Shows interest or principal forfeited if you withdrew the money before the maturity date of the obligation, such as from a CD. You may deduct this amount to figure your adjusted gross income on your income tax return. See the Instructions for Form 1040 or 1040-SR to see where to take the deduction.

4. **Federal Income Tax Withheld**—Shows backup withholding. Generally, a payer must backup withhold if you did not furnish your TIN or you did not furnish the correct TIN to the payer. See Form W-9 for information on backup withholding. Include this amount on your income tax return as tax withheld.

5. **Market Discount**—For a covered security acquired with OID, if you made an election under section 1278(b) to include market discount in income as it accrues and you notified your payer of the election, in writing in accordance with Regulations section 1.6045-1(n)(5), shows the market discount that accrued on the debt instrument during the year while held by you. For a tax-exempt obligation that is a covered security acquired on or after January 1, 2017, and issued with OID, shows the market discount that accrued on the obligation during the year while held by you. For a covered security acquired on or after January 1, 2015, market discount will be calculated on a constant yield basis unless you notified your payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to make a constant yield election for a market discount under section 1276(b). The payer may, but is not required to, report the market discount for a

tax-exempt obligation that is a covered security acquired before January 1, 2017. Report the accrued market discount on your income tax return as directed in the instructions for Form 1040 or 1040-SR. Market discount on a tax-exempt security is includible in taxable income as interest income.

6. **Acquisition Premium**—For a covered security, shows the amount of acquisition premium amortization for the year that reduces the amount of OID that is included as interest on your income tax return. If an amount is reported in this column, see the instructions for Form 1040 or 1040-SR (Schedule B). If an amount is not reported in this column for a covered security acquired with acquisition premium, the payer has reported a net amount of OID that reflects the offset of OID that is included in income. If the payer has reported a net amount of OID in column 1 or column 8, you must report the net amount of OID on Form 1040 or 1040-SR (Schedule B) and you must not make an adjustment to this amount for acquisition premium on Form 1040 or 1040-SR (Schedule B). If there is an amount in both columns 6 and 11, for a tax-exempt obligation that is a covered security acquired on or after January 1, 2017, and issued with OID, the amount in column 6 shows the amount of acquisition premium amortization for the year that reduces the amount of your tax-exempt OID for the year. The payer may, but is not required to, report the acquisition premium for a tax-exempt obligation that is a covered security acquired before January 1, 2017, and issued with OID. See the instructions above for a covered security acquired with acquisition premium.

7. **Description**—Shows the identification number (CUSIP number) or description of the obligation (may include the stock exchange, issuer, coupon rate, and year of maturity).

8. **Original Issue Discount on U.S. Treasury Obligations**—Shows OID on a U.S. Treasury obligation for the part of the year you owned it. Report this amount as interest income on your federal income tax return, and see **Pub. 1212, *Guide to Original Issue Discount (OID) Instruments***, to figure any appropriate adjustments to this amount. This OID is exempt from state and local income taxes and is not included in column 1. See the instructions above for a covered security acquired with acquisition premium. If the number in this box is negative, it represents a deflation adjustment. See **Pub. 550, *Investment Income and Expenses*** for further information on accounting for this adjustment.

10. **Bond Premium**—For a taxable covered security, including a Treasury inflation-protected security, shows the amount of premium amortization allocable to the interest payment(s), unless you notified the payer in writing in accordance with Regulations section 1.6045-1(n)(5) that you did not want to amortize bond premium under section 171. If an amount is reported in this column, see the Instructions for Form 1040 or 1040-SR (Schedule B). If an amount is not reported in this column for a taxable covered security acquired at a premium and the payer is reporting premium amortization, the payer has reported a net amount of interest in column 2. If this amount in this column is greater than the amount of interest paid on the covered security, see Regulations section 1.171-2(a)(4). If there is an amount in both columns 10 and 11, for a tax-exempt obligation that is a covered security acquired on or after January 1, 2017, and issued with OID, the amount in column 10 shows the amount of premium amortization for the year that reduces the amount of your tax-exempt interest for the year. The payer may, but is not required to, report the premium amortization for a tax-exempt obligation that is a covered security acquired before January 1, 2017, and issued with OID.

11. **Tax-Exempt OID**—For a tax-exempt obligation that is a covered security acquired on or after January 1, 2017, shows the tax-exempt OID for the part of the year it was owned by the record holder. The payer may, but is not required to, report the OID for a tax-exempt obligation that is a covered security acquired before January 1, 2017. In general, report the amount of tax-exempt OID on Form 1040 or 1040-SR. See the instructions above for a covered security acquired with acquisition premium.
